

Major Decisions Taken:-

1. Enhancement of Teaching Methods

- Implementation of more interactive teaching techniques, such as group discussions, workshops, and hands-on projects.
- Introduction of additional training programs for faculty to adopt new teaching methodologies and integrate technology into their lessons.

2. Infrastructure Development:

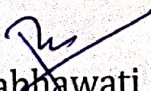

- Allocation of funds for the renovation of existing classrooms and laboratories.
- Upgrading the library with more digital resources and comfortable study spaces.
- Planning for future expansion projects to accommodate the growing student population and provide state-of-the-art facilities.

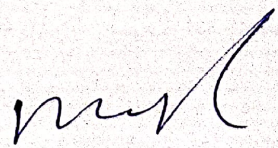

3. Student Support and Resources:

- Establishment of a student support center to address academic and personal concerns.
- Increasing the availability of academic resources, such as tutoring and mentoring programs, to support student success.

Conclusion

The feedback from students has been instrumental in guiding the institution's decision-making process. By addressing the areas of improvement suggested by students, the institution aims to provide a better learning environment and enhance the overall educational experience.
