Feedback Analysis Report

Overview

The feedback collected from students reveals a generally positive sentiment towards the teaching and learning process. However, there are areas identified for improvement, particularly in teaching methodologies and infrastructure. The institution has taken significant decisions based on this feedback to enhance the overall educational experience.

Key Findings

1. Teaching and Learning Process:

- **Positive Feedback:** A majority of students expressed satisfaction with the quality of teaching, the availability of resources, and the support from faculty members.
- **Suggestions for Improvement:** Some students suggested the incorporation of more interactive and practical learning sessions, updated course materials, and increased use of technology in classrooms.

2. Infrastructure:

- **Positive Feedback:** The newly inaugurated three-story building in Sector 5 was well-received and appreciated by students.
- **Suggestions for Improvement:** Students highlighted the need for better classroom facilities, improved library resources, and enhanced laboratory equipment.
